This Mechanical Protection Warranty Plan is not an insurance policy. It is a contract between You and the Company, designed to ensure that your vehicle is maintained to a standard that will help protect you from costly repairs to defective parts. This plan does not completely insure you from ever needing to pay repair expenses on your vehicle.

The Warranty Plan

The Company agrees that in the event of any failure* of any Covered Component, it will repair or replace such component using parts of a like kind and quality, to acceptable working condition, to the extent of the limits of the Warranty Plan, provided that the Customer has observed the conditions and terms of the Warranty

Plan. Covered Components will vary depending upon whether you have an Inchcape Protected Standard Cover Warranty Plan or an Inchcape Protected Premium Cover Warranty Plan.

*Failure means the inability of any Covered Component to satisfactorily perform the function for which it was designed.

Which Warranty Plan covers my vehicle?

All Inchcape Protected vehicles come with the Inchcape Protected Standard Cover Warranty Plan. Some vehicles may be covered by the Inchcape Protected Premium Cover Warranty Plan for an

additional cost. The type of Warranty Plan that your Vehicle is covered by is specified next to "Warranty Type" on the Customer Contract Page.

Period of Cover - Premium

The conditions of the Contract commence at the Delivery Date and the benefits commence on the later to occur of either the Delivery Date, the expiry of any Manufacturer's express warranty, or Dealership's Statutory Warranty provided with the

Vehicle ("Benefits Commencement Date"). The term of the Contract shall continue for 3 years from the Benefits Commencement Date, unless otherwise determined in accordance with the terms of the Contract.

Limits of Liability

Limits of liability of this Warranty Plan shall be those indicated under "LIMITS OF LIABILITY" shown on the Customer Contract Page in this booklet.

What do I need to do?

You will enjoy the benefits of the Inchcape Protected Warranty if the Vehicle is serviced by an Inchcape Protected Dealer, during both the Manufacturer's Warranty (in accordance with the manufacturer's requirements) and also the Inchcape Protected Warranty until both periods expire. After the expiry of the Manufacturer's Warranty period and upon commencement of the Inchcape Protected Warranty, you can enjoy the Inchcape Protected six month or 10,000 km

(whichever occurs first) fixed price service plan on page 7. It is the responsibility of the Customer to ensure these services are performed and that the service details are recorded correctly on Your Warranty Plan documents. Failure to do so will void the Warranty Plan without further notice. It is the responsibility of the Customer to check coolant and oil levels on a regular basis. The Company will not be responsible for failure due to lack of appropriate oil or coolant.

Repair Procedure

In the event of any failure likely to give rise to a claim under this Warranty Plan, the Customer shall, as soon as is reasonably possible:

1. If the Vehicle is drivable, bring it to an Inchcape Protected Dealer workshop. One of our customer service representatives will then contact the Warranty Plan Administrator for verification of cover. Your Warranty Plan booklet must be presented, with up-to-date servicing records, when booking your Vehicle for repairs.
2. If the Vehicle is undrivable, or if to drive it could cause further damage, it is Your responsibility to have the Vehicle

towed to an Inchcape Protected Dealer workshop. The Company will not be responsible for any repairs or replacements carried out by persons other than Inchcape Protected Dealer staff.

3. If a failure occurs outside a 50km radius from an Inchcape Protected Dealer workshop, please contact the Warranty Plan Administrator, on 1300 728 687, to obtain an order number and/or work authority, before commencing repairs. Repairs can only be performed by an approved Licensed Motor Vehicle repairer. Only if this is done correctly will You (or the repairer) be reimbursed.

Fixed Price Servicing

Premium Cover Warranty Plan Term and Servicing Requirements

Thank you for purchasing Your Inchcape Protected quality Vehicle. The conditions of the contract commence on the Delivery Date and the benefits commence on the Benefits Commencement Date. Subject to your compliance with the conditions contained in this booklet, the term of the Contract shall continue until the date that is 3 years from the Benefits Commencement Date, unless otherwise determined in accordance with the terms of the Contract.

To avoid any misunderstanding, please read this carefully.

An important condition of the Warranty Plan, is that the Vehicle must be serviced by an Inchcape Protected Dealer, during both the Manufacturer's Warranty term (in accordance with the manufacturer's requirements) and also the Inchcape Protected Warranty term until both periods expire. After the expiry of the Manufacturer's Warranty period and upon commencement of the Inchcape Protected Warranty period, you can enjoy the Inchcape Protected six month or 10,000 km (whichever occurs first) fixed price service plan. It is the responsibility of the Customer to ensure these services are performed and that the service details are recorded correctly on Your Warranty Plan documents. Failure to do so will void the Warranty Plan without further notice. It is the responsibility of the Customer to check coolant and oil levels on a regular basis. The Company will not be responsible for failure due to lack of appropriate oil or coolant.

In simple terms, the Company will repair or replace covered components, to the limits of the warranty plan, if you have the vehicle serviced by an Inchcape Protected dealer.

After the expiry of any Manufacturer's Warranty period we will agree to service your Vehicle under the Inchcape Protected six-monthly/10,000 km fixed price service plan at the price quoted on the Customer Contract Page. The Inchcape Protected six-monthly/10,000 km fixed price service plan includes:

- Check air conditioning operation (where fitted)
- Check steering and all suspension components
- Complete visual inspection of under carriage
- Conduct road test

Total price including parts, oil & labour is shown on your Customer Contract Page.

Servicing is necessary to maintain your Vehicle in good condition. You will be advised of any defect found. Any items covered by the Warranty Plan will be repaired at a mutually convenient time in accordance with the terms of the plan. In the event any additional work is required, we will refer any other required repairs or defects outside of this warranty, to you for your approval, prior to any work being commenced.

Please note that whilst the Inchcape Protected fixed price service plan is intended to cover part of your Vehicle's regular servicing needs during its lifetime, it is NOT a substitute for the full Manufacturer's service requirements for your Vehicle. In order to meet the Manufacturer's service requirements your Vehicle will require additional periodical maintenance on specific items from time to time. These will be at additional cost to you. For example, automatic transmission servicing, timing belt replacement, spark plugs, brake fluid or engine coolant replacement will be required at the manufacturer's recommended intervals.
